

**ANTIOCH COLLEGE
WORK STUDY
PAYMENT AGREEMENT**

The work study that you have been awarded by the financial aid office is not a grant or a loan. It is an eligibility to earn wages. In order to receive work study wages you must be hired for an approved job and turn in time slips for the hours worked. You will receive a paycheck for the hours worked.

The paycheck is yours to use however you choose.

There are two options available to you if you want to use all or part of your work study earnings to pay towards your tuition, fees, room and board.

Option 1 – You may authorize the Cashier to apply your paychecks to your account until the amount you have authorized is paid in full. This option is not available if you are doing “direct deposit” of your paychecks at the bank.

Option 2 – You will make payments at the Cashier’s window on payday. The Cashier cannot give you back more that \$225 in change so you will need to pay on your student account at least the difference between your net check and \$225. If you choose this option and do not follow through with payments, this option will not be available to you next term.

PAYMENT AGREEMENT

I wish to pay \$ _____ from my work study earnings for this term.

I elect to choose (circle one): Option 1 Option 2
